### REACH DECLARATION OF CONFORMITY

The European Parliament approved the regulation no. 1907/2006/EC concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) of 18 December 2006, which came into force on the 1<sup>st</sup> of June 2007. The company HAFNER Pneumatika Kft. knows the specifications of this regulation.

HAFNER Pneumatika Kft. supports the objectives appointed by REACH. Our company is committed for the responsible treatment of chemicals and for the environment. For the safe production and for the safe use of our products, we maintain a very close connection with our suppliers and customers.

HAFNER Pneumatika Kft. is qualified as a downstream user according to REACH, so it is not directly responsible for the materials registration. We are in close relation with our suppliers, we are constantly informed about their supplied materials, and we comply with the regulations of the safety datasheets of the materials. Our company does not use materials that contain substances of very high concern (SVHC) in more than 0,1 mass-percent. We ensure this by requesting REACH conformity declarations regularly from our suppliers.

Our customer can get the information about the current candidate list (a.k.a. SVHC list) under the following link:
